Exercise 1

Working with annotated corpora

1. The text below is a paragraph from the electronic version of the Travels of Sir Mandeville.

   (from J.O. Halliwell, 1883, www.archive.org)

   How would you go about if your task was to find all verb forms? What would you have to do?

2. Below you see the tagged version of the same paragraph. How would you go about finding all verb forms?

Finally, you find a parsed version of the text below. What additional information is given in this format? What could you say about the position of all occurring verbs in this text? Mark all verb forms in red and try to analyse its position in the sentences relative to the subject and the object (if there is any).
